

Swimming Pool Sampling Instructions

- 1) First, remove the cap, being careful not to touch the rim of the bottle or the inside of the cap. Next, invert the bottle and with a sweeping motion, immerse the bottle and slowly turn it right side up and bring it out of the water, making certain the bottle is filled above the 100 ml line. This should be done with one continuous motion. See example below.
- 2) Replace the cap immediately.
- 3) Complete all information necessary on the left side of the accompanying chain of custody form.
- 4) Ship to:
Environmental Laboratories
635 Green Rd.
P.O. Box 968
Madison, IN 47250
- 5) We must receive the sample within 30 hours after collection. Samples received more than 30 hours after collection will not be analyzed. Samples received between 24 hours and before 30 hours after collection must be marked “questionable” .
